Final Year Project(B.E):

Name- **Stock Market Prediction Based On Historical Data Analysis**

The Stock market process is full of uncertainty and its affected by many factors.Hence the Stock market prediction is one of the important exertions in business and finance.The learned model can then be used to make future predictions about stock value.

Language Used:-Frontend(Php),Backend(MongoDB)

Diploma Project:

Name- **Police Automation System**

The basic idea about the system is to add value to the police working process, stop the bribery and make all the activities more easy for the people. We can't stop the crime which ever going on in our system but atleast we can try to make the things better for people who has been suffering from all this by using this system. Make people more informative about what things are happening.

Language Used:-php(frontend),mysql(backend)

Certification:

- Microsoft Technology Associate
- Barclay's Soft Skill
