COMPUTER SKILLS:

Software : Dream Weaver, Oracle, Eclips, Visual Studio.

Programming Languages : C, C++, C#, .NET, JAVA, PHP.

Academic Projects:

Autonomous Mobile Mesh Networks. :

Platform : NS2

Mobile ad hoc networks (MANETs) are among the most popularly studied network communication technologies . In such an environment ,on communication infrastructure is required .The mobile nodes also play the role of the routers ,helping to forward data packets to their destination via multiple-hop relay .this type of network is suitable for situation where a fixed infrastructure is unavailable or infeasible .It is also cost effective solution because the same ad hoc network can be relocated ,and reused in different places at different for applications.

Pharmacy Management System

Platform : J2EE

The main purpose of Pharmacy Management System is to the management of pharmacy. This system manages the deals of medicines between the shopkeeper and the distributor. The basic benefit of this project for the shopkeeper is, he can place the order online to the local distributor . It saves the time of the distributor as well as of the shopkeeper.
