SHOP.(TE)

### **Diploma project:**

CRIME FILE  
MANAGEMENT  
SYSTEM.

### **Workshop Attended :**

## **DETAIL-**

We proposed this system which helps patients to maintain their medical records centrally on cloud and can be access anywhere carrying smart card with us. If some time we don't have smart card with us at that time user are using another option i.e patient id. So doctor give a proper treatment to that patient. We also give message alert system for remembering to patient for their appointment with the doctor.

Frontend- Android

Backend- Fire Base Cloud

## **DETAIL-**

pharmaceutical Management System is a Mediator between the medicine supplier and company.

Frontend- Netbean 8.0, Java

Backend- Mongodb

## **DETAIL-**

Jewellery Shop is a Website. For this we used HTML Language and for data connectivity we used PHP. For storing data we used PHPMYSQL .

Frontend- HTML, PHP

Backend- PHPMyAdmin

## **DETAIL-**

This project is Web based application. This Website provides facility for reporting online crimes, complaints, missing persons, show most wanted person details mailing as well as chatting. It is client/server based application.

Frontend- HTML, JavaScript

Backend- Mysql
