ACADEMIC PROJECT EXPERIENCE

1. Project as Part of the M.Sc. (Comp.Sci.)

Company Name: YOTiS Technology Pvt. Ltd.,Pune.
Project Name: Secure and Dynamic Allocation Of Fragment Data With Optimal Performance In Cloud
Technology: JAVA, MySQL.
Description: We proposed a methodology which deals with cloud storage security and optimal performance. Before uploading file we are fragmenting that file into multiple replicas and allocate that fragments. After that if anyone wants to access that file you need permissions from that user. If at any point the data gets hacked you can retrieve your data from replicas.

2. Project as Part of the M.Sc. (Comp.Sci.)

Project Name: Indian Political Trends on Twitter.
Technology: HTML 5, CSS3, JavaScript, jQuery, Bootstrap, JAVA, MySQL.
Description: Our project deals with various tweets of Twitter, on which we have applied data mining algorithm. The purpose of this project is to build an algorithm that can accurately classify Twitter messages as positive, negative or neutral with respect to a politician or political party of India. The result gives the data in chart format.

3. Project as Part of the M.Sc. (Comp.Sci.)

Project Name : Visa Processing Information System
Technology : PHP, MySQL,CSS3, Bootstrap.
Description: The client of this project is any organization who is having many abroad clients especially US clients. This type of organizations is frequently sending their employees for their overseas clients. Our project is used to process their visa and store all the details regarding the passport holder.
