PROJECTS

Project : “Sports Store: A Real Application”

Technical Specification:

Sports Store follows the classic approach taken by online stores everywhere. Create an online product catalog that customers can browse by category and page, a shopping cart where users can add and remove products, and a checkout where customers can enter their shipping details, also create an administration area that includes create, read, update, and delete (CRUD) facilities for managing the catalog; and protect it so that only logged-in administrators can make changes.

Project : “Wifi Controlled Robot Using Raspberry PI”

Technical Specification:

A self-driven module in the proposed system will accomplish the automated tasks such as surveillance in areas where it is difficult for human to monitor the areas, disaster areas to find injured persons, applications like security, automation, medical applications

HOBBIES

- Playing volleyball.
- Playing Cricket.
- Watching movies.
