PROJECT DETAILS:

1. E-Marketing with E-Banking-

Team size-4
Duration-8 months
My Role-Leader of the Project

In this project we designed software for Distributors and two bank websites for transaction purpose. With the help of our designed software, Distributor can provide information about all products to customers. It keeps records of all sales. Keeps records of all customers. When customer buy some products, transactions are done by credit cards.

2. Application Development Using OPENMP and MPI-

Team size-5

Duration-8 months

Platform-Linux

Processor-8 socket Quad Core AMD Opteron processor

RAM-24GB

In this Project, we worked on "Edge Detection in Image Filtering". Applying filters to images, can take minutes or even hours to complete, depending on the complexity of the filter, size of the image and speed of the processor. To fix this problem we distribute the images to the processes to help speed up the task.

CO-CURRICULAR ACTIVITIES:

- Participated in DISCOVERY 2k8 National level technical Symposium with paper "**NLP**" in Ashta, India.

- Attended workshop on **Linux kernel programming and Linux security** arranged by Walchand Linux User Group Sangli, India.

- Certified by **IBM Centre of Excellence** as **IBM Certified Database Associate "DB2 9 Fundamentals"**

ATTENDED SEMINAR ON:

- **Cyber Crime Security** in WCE, Sangli.

- **SSL Protocol** used for security purpose.
